NRF SCHOLARSHIPS FOR 2015

The National Research Foundation (NRF) Scholarships for 2015 are now open. As College scholarship funds continue to dwindle because of increased number of students against a backdrop of decreased institutional funds we encourage students to seek alternative funding. All students eligible to apply for the NRF funding are encouraged to do so. Scholarships will only be renewed in 2015 if evidence of having applied and not being successful is submitted to the College Research Office. Applications must be submitted through an online application process to the National Research Foundation.
