UKZN RESEARCH OFFICE Requirements for NRF Rating [LIVESTREAMING]

Date: 3 June 2016

Time: 13h00 until 14h00

The NRF will host a livestream lecture presented by Ms Joyce Olivier, 'Evaluation & Rating of Researchers' Go to <http://vcrecorder.nrf.ac.za>, click on "Watch", "Live Videos" and click on "Requirements for NRF Rating" The lecture will highlight the value of an NRF rating and address requirements for rating in the various categories. Researchers who participate via live stream can ask questions in real time via twitter to @NRF News or use the hashtag #NRFInfo. All researchers are encouraged to watch the presentation and participate via Twitter.

The NRF rating system is a key driver in the NRF's aim to build a globally competitive science system in South Africa. It is a valuable tool for benchmarking the quality of our researchers against the best in the world. NRF ratings are allocated based on a researcher's recent research outputs and impact as perceived by international peer reviewers. The rating system encourages researchers to publish high quality outputs in high impact journals/outlets. Rated researchers as supervisors will impart cutting-edge skills to the next generation of researchers.
