*All presenters to run spell check before submitting*

## GRANT INNOVATION AND PRODUCT DEVELOPMENT

The South African Medical Research Council is pleased to notify you of the opening of the **2016 Request for Applications for Self-initiated Research Grants.**

The MRC's Self-initiated Research (SIR) Grants Programme is designed to support original research initiated by a researcher at a recognized research institution in various areas of health. SIR grants are in the amount of up to **R200 000** per year for a maximum period of **three years**. These funds provide support for research expenses and it is expected that the researchers/applicants already have in place the necessary equipment and facilities required for the proposed research. Applications are invited in two different categories as follows:

- 1 early-career researchers
  - 2 Mid-level & established researchers.
- Changes have been introduced to the SIR Programme in 2016:
- New research priority areas are covered
  - Individuals working within MRC extra-mural research units are now eligible to apply
  - The focus of the call is early-career scientists; however mid-level and established researchers are also invited to apply, provided that a clear focus on capacity building is demonstrated

Please follow this link for more details: <http://www.mrc.ac.za/funding/university.htm>.

**NB:** While this is a formal notice of the opening of the 2016 SIR call, Proposal Central will **not** be available for submission of proposals until later in June. We will send out a notification once the system is open for submissions. Please also check the MRC website.

For queries contact: Patricia Ngwenya Ext- 3273, [ngwenyap@ukzn.ac.za](mailto:ngwenyap@ukzn.ac.za) or Busi Mbhele:

Ext – 8431, [mbhelenb@ukzn.ac.za](mailto:mbhelenb@ukzn.ac.za)  
Issued by the University Research office
