DSTC COURSES 2019

Please advise your availability for remaining DSTC Courses for this year. There will be two further courses – Johannesburg in November and a week later, the course in the Cape.

There are places on both courses

The next two DSTC/DATC courses are as in this invite. We are hoping to increase the DATC panel of local experts, (Matt Gunning is currently the only KZN-based instructor). For the **Surgeons** listed here the DSTC is highly recommended to cement the skills for operative trauma care, especially for less-often encountered injuries, indeed specifically for the post-intermediate student or junior consultant.

Please share the invite with those who may be interested and meet the participation criteria (post-intermediate or senior registrar / consultant level).

Prof T Hardcastle will not be at these as he taught on the course earlier this year, but the faculty will be experienced trauma-academics and anaesthesiologists.

ANAESTHESIOLOGY FIRST SEMESTER CLINICAL COURSE 2020

Please be informed that the applications for the FCA 2 first semester clinical course will open on **1 October 2020**.

Only online applications will be accepted

Details about the course can be accessed on the course website

<https://steldacc.wixsite.com/2020>
