UKZN MMed SEMESTER REGISTRATION *IMPORTANT NOTICE*

It recently came to light that a first-to-second-year registrar in one of our disciplines had failed to register as an MMed student in the second semester of 2023. This was noted when he found that he could not register for the current semester. Please be warned that failure to register has serious consequences for both the registrar/MMed student and the discipline, and ensure that all your MMed students do indeed register every semester.

The Registrar's office has advised us that students may not accrue any contribution towards qualification while unregistered. Thus, although the student has been given permission to re-register, the following will apply:

1. Their MMed degree minimum registration time and HPCSA training time requirement will be extended.
2. This means that the registrar will have to apply to the Steering Committee for permission to remain in post for a further 6 months, or will have to complete specialisation from outside the post.
3. If their time in post is extended, then the discipline won't be able to appoint a new registrar for 6 months.
4. No assessment result, logbook or portfolio entry and the like accrued during the unregistered period can contribute towards qualification as a specialist and MMed graduate. The HOD has been requested to ensure that all such entries are struck from the record.

It has become clear that it is dangerous to view the specialist training programme and the MMed degree programme as separate processes, which can be completed separately and signed off at different times. The University has made it very clear that no student is to be signed off via Form 57 or in any other way until their MMed is Degree Complete. (On the positive side, this greatly helps to simplify, clarify and remove many of the difficulties we faced with the University and HPCSA previously when students allowed the two processes to get out of step with one other.) It is essential for all MMed students to realise this, and to understand that the MMed does not consist of the research component alone. This is only 25% of the requirement. The other 75% is coursework (the Clinical and Professional Practice modules), and while working in our hospitals and clinics, they are effectively participating in the coursework component of their MMed degree. If they are to benefit from this academically and professionally, then they must be registered.

**MEPA COURSE (MANAGING
EMERGENCIES IN PAEDIATRIC
ANAESTHESIA) SATURDAY,
24TH FEBRUARY 2024**

The SMART Centre of the Dpt. of Anaesthetics at IALCH is offering this full-day Paediatric High Fidelity Simulation Workshop for Anaesthesia providers on Saturday, **24th of February 2024.**

MEPA is a very ‘hands on’ simulation workshop evolving around emergencies in Paediatric Anaesthesia. It was designed for any Anaesthesia provider caring for Paediatric patients, frequently or occasionally, and will improve your technical and non-technical skills during the management of potentially devastating emergencies encountered in the peri-operative care of our children.

Allocations will be made on a ‘first come-first serve’ basis and the course is free of charge. Tea and lunch will be provided by the Department.

If you would like to participate as a candidate, please email Dr Christian

Kampik (kampik@ukzn.ac.za) for a booking.

DEPARTMENT NOTICE

- All hospital units need to ensure proper typed CPD registers are kept for academic meetings and please ensure that registers are typed, only the signature must be handwritten – this is for HPCSA audit purposes.
- Doctors who were recipients of discipline awards need to ensure they utilize their awards timeously and to contact Camy
- Staff are encouraged to communicate with admin using the generic email: anaesthesiology@ukzn.ac.za

The 2024 academic programme is under-way. 750 underprivileged medical students face financial insecurity to fund their food, accommodation and textbooks. This follows payment delays from the National Student Financial Aid Scheme (NSFAS), which they heavily rely on.

The **#UKZNMealsforMedics** fundraising initiative appeals to you to help us raise R262.500 to cover 750 students at R350 per student per month.
